Internship

OctoDo Solutions Private Limited **Jan 2025 - Apr 2025**

Product Development Intern

- Built responsive UI components for a live web application using HTML, CSS, and JavaScript.
- Improved page structure, styling, and usability across desktop and mobile screen sizes.
- Diagnosed frontend issues through browser testing and resolved layout and responsiveness problems.
- Supported feature delivery by integrating interface updates and with the development team.

Projects

ToolPool **Jun 2026 - Jul 2026**

Community Tool-Sharing Platform

- Developed a MERN based tool sharing platform using React, Node.js, Express.js, MongoDB, and Mongoose.
- Added tool listings, search, favorites, reviews, notifications, and borrowing features for seamless sharing.
- Configured authentication, protected routes, and REST APIs for users, tools, borrowing requests, and admin operations.
- Managed the complete borrowing workflow with date selection, lender approval, status tracking, and real-time messaging.
- **Deployed Link : https://toolpool.onrender.com**

TradeDesk **Apr 2026 - May 2026**

Live Trading Simulator Platform

- Created a full stack paper trading platform using React, Node.js, Express.js, and MySQL.
- Integrated live and fallback market data for stock search, indices, top-active stocks, intraday charts, and market depth.
- Set up session-based authentication and REST APIs for holdings, watchlists, stock details, trade history, and dashboard data.
- Implemented simulated buy and sell orders with balance checks, weighted-average pricing, portfolio valuation, and live profit-and-loss tracking.
- **Deployed Link : https://tinyurl.com/agrimTradeDesk**

RailEase **Feb 2026 - Mar 2026**

Smart Railway Reservation Platform

- Designed a Java Swing desktop application for user registration, login, train browsing, ticket booking, and cancellation.
- Managed seat availability with booking validation and automatic seat restoration after cancellations.
- Organized the code into model, service, UI, and utility layers using object-oriented programming.
- Stored user, train, and ticket records through file handling and generated a text receipt for each booking.
- **Repository Link : https://github.com/agrimjain10/RailEase_smart_reservation**

Certificates / Certifications

Java Programming **Jun 2026 - Jun 2026**

Neo Colab

SQL and Relational Databases **Mar 2026 - Mar 2026**

IBM

Oracle Cloud Infrastructure AI Foundations **Oct 2025 - Oct 2025**

Oracle

Skills

Languages: *C++, Java, JavaScript*

Technologies: *HTML, CSS, React, Node.js, Express.js, REST APIs, MySQL, Supabase, JSON*

Tools: *Git, GitHub, Linux*

Data Structures & Algorithms: *Solved 100+ problems on LeetCode*

Soft Skills: *Problem Solving, Iterative Thinking, Team Collaboration, Adaptability*

Education

Lovely Professional University ***2025 - Present***

Master of Computer Applications | CGPA : 8.55 Phagwara, Punjab

Kumaun University ***2022 - 2025***

Bachelor of Commerce - Financial Accounting | Percentage : 62.03% Nainital, Uttarakhand

St. Mary's Sr. Sec. School ***2021 - 2022***

12th - Commerce | Percentage : 80.00% Bazpur, Uttarakhand

St. Mary's Sr. Sec. School ***2019 - 2020***

10th | Percentage : 83.00% Bazpur, Uttarakhand
